

14. Free Medical Care through Trusts / Govt bodies / Institutions

A. Sri Sathya Sai Sanjeevani Hospital, Kharghar, Navi Mumbai

All services are provided Totally Free of Cost at Sri Sathya Sai Sanjeevani Hospital.

Sri Sathya Sai Sanjeevani Centre for Child Heart Care & Training in Paediatric Cardiac Skills was inaugurated in Nov 2018 in Kharghar, Navi Mumbai, Maharashtra. Government of Maharashtra has declared Sanjeevani as the Centre of Excellence for congenital Heart Disease in the state of Maharashtra.

The Hospital is situated in Kharghar which is at a distance of 8 km from Kharghar (Navi Mumbai) railway station and at a distance of 41 km from Chhatrapati Shivaji International Airport in Mumbai. Kharghar railway station is situated on harbour line from Mumbai.

Address : Sri Sathya Sai Sanjeevani Centre for Child Heart Care & Training in Paediatric Cardiac Skills. Plot No. 2, Sector 38, Kharghar, Navi Mumbai, Maharashtra - 410210

Procedure: The child's medical reports can be uploaded after consulting the centre which assigns a Token or Ticket No. Subsequently, the parent will be informed on the medical condition of the child and what needs to be done, after examining the report by doctors. Generally re-examination of the child is done, along with necessary tests at the centre in the OPD, on any day between Mon and Sat before 2 PM. No accommodation is provided at this juncture. Depending on the backlog the child will be either admitted on the very next day or a convenient date will be given. On admission, both the child and parents (three of them only) are given accommodation. It may be noted that additional children and adults are not given accommodation.

Therefore, mothers having additional younger children will have to leave them at home, it may necessitate weaning them from breast feeding and making them habituate the company of other members in the family well before seeking admission for the needy child. This is particularly important as attending parent can't come out from Intensive Care Unit to attend to the other child. In extraordinary cases the additional child will be allowed but one would face serious problems due to the operational reasons. Hence, it is strongly advised to leave other children at home while getting the child needing operation admitted.

Subsequent to the tests at OPD and when the beds becomes available, admission is given to the child along with the parents and the child will be kept in waiting for the turn (it can take even 15 days stay in waiting, depending on the backlog and health condition of the child) to be operated. Generally, the child along with the mother is accommodated in the ward while the second person will be accommodated in the dormitory on a different floor. THERE ARE NO CASH COUNTERS, hence no payments are to be made regardless of the type of operation and length of the stay. Food is also provided free of cost for the child and the attending parents. Patients need to carry only things for personal hygiene like tooth brush, tooth paste, soaps etc. (may be mugs and a small bucket if at all). Here is the case of a girl (4 ½ years old) who was operated for ASD (getting a hole sealed in the heart) in Jan 2021. Three of them had to stay for a month during the pre and post operative period and their expenses were a mere Rs 960 that too for breakfast for the entire period for all of them put together. After the operation and recovery, generally 4 to 5 days, the child was discharged with an appointment fixed for follow up after a month. The subsequent follow ups need to be done at 3 months, 6 months and then a year after operation. One can also get the child examined by doctors locally and send the reports by mail to the hospital for assessment.
